Summary

Computer Science undergraduate with knowledge of Data Structures, Algorithms, Object-Oriented Programming, DBMS, and Web Development. Hands-on experience in building academic and personal projects using Python, SQL, HTML, CSS, JavaScript, and Git. Seeking an entry-level Software Developer role to apply technical skills and continue learning.

Skills

Programming & Querying: JavaScript, Python, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

Data Visualization Tools: Advanced MS Excel, Power BI, Tableau

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), I

Experience

AI for Drone Technology Intern

June 2026 – July 2026

RANBOT Defence Systems (Remote)

Tools Used: Python, DroneKit, MAVLink, ArduPilot SITL, VS Code, Git

- Completed a 30-day industry internship on Artificial Intelligence for Drone Technology.
- Applied Python and AI concepts to understand autonomous drone navigation, object detection, and intelligent decision-making systems.
- Worked on practical assignments involving data processing and AI-based drone applications.
- Strengthened analytical thinking, teamwork, and software development skills through project-based learning.

Projects

Enterprise Data Analytics Dashboard | *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack web application to upload, manage, search, preview, and delete CSV datasets using the MERN stack.
- Implemented JWT-based authentication, secure REST APIs, file upload using Multer, and MongoDB database integration.
- Designed a responsive user interface using React.js and Tailwind CSS following modern dashboard design principles.

Face Recognition Attendance System | *Python, OpenCV, LBPH, Tkinter*

- Developed an AI-powered Face Recognition Attendance System using Python, OpenCV, LBPH, and Tkinter for automated real-time attendance management.
- Implemented face detection, model training, and CSV-based attendance reporting, reducing manual effort while improving attendance accuracy and efficiency.

Certifications

- **Introduction to Python** – Infosys Springboard May 2025
- **Bootcamp on UAV Navigation, Control and its Applications** – IIT Bhilai & MeitY, Feb 2026

Education

B.Tech in computer science and Engineering

Expected Graduation: 2027

Shri Shankaracharya technical campus bhilai, chhattisgarh

CGPA: 8/ 10

Higher Secondary (Class XII)
